

GEN. GRANT is at home in Galena.

The wheat market has chills and fever.

ARKANSAS state script is quoted at 99 cents.

TILDEN withdrew—the state of New York from his enemies.

It is claimed that \$100,000,000 was sent out of Texas, this year, for cows.

THE Georgia republican convention was not altogether lovely.

SAMUEL J. TILDEN wants to be president of the United States.

REPUBLICAN state conventions were held yesterday in Oregon, Georgia and Virginia.

JOHN KELLEY is implacable. He does not believe Samuel J. Tilden to be a great reformer.

THE California republicans meet in convention one week from to-day. Blaine will most probably receive the vote of the convention.

A WIT says that after 1851, when Ohio goes out of the presidential chair, and most other good, fat chairs, marriage is the best state for man.

THE Courier-Journal has discovered that Senator Beck is not, at heart, a Tilden man, and gives him a broad hint to rise and explain.

THE New York World says that "if Tilden is nominated he will lose every northern state and six southern ones." It looks a good deal now like they will have to be lost.

HOPES for an early adjournment of congress begin to wither and die. Members of the appropriation committee say that August will find the mill still grinding.

MISS LAI SUN, a sweet Chinese dandy, has just been married to Capt. Anderson, an American. The contracting parties belong to that exceedingly vague class, the "upper ten."

MEMBERS of the house committee on appropriations express the opinion that congress can not adjourn before August. Four of the largest appropriation bills have not been touched yet.

ROBINSON—Robinson—that name has a familiar sound. Isn't he the man who is named killed in the last election? This is a part of his revenue. He heads the delegation which will kill Tammany.

UNLESS Tilden is the nominee the republicans might as well try to murder the man in the moon with pop-guns as to try to carry any southern state. Even then the chances for the "pot" are not as good as four aces.

A DANGEROUS bill has been smuggled into the house. It is a motion to repeal the law refusing pensions to ex-Confederates. A two-thirds vote being unobtainable the bill failed. This bill is significant though, none the less.

THE Louisville and Nashville stock which lately tumbled from up in the forties to \$1.15—not 72 as stated by us—has rallied again and now stands at \$1.35. Nashville and Chattanooga stock fell to 72 but rose one half a cent.

THE great power held by the useless southern states, in the Chicago convention, has had a tendency to agitate the question of changing the method of representation so as to give delegates according to the republican vote. The movement is right. The present method is unfair and dangerous.

THE Vicksburg Herald says that not a single one of the republicans prominently mentioned would fail to carry Mississippi against Tilden. Representatives Manning, Singleton and Chalmers agree with the Herald. Notwithstanding this lamentable situation, Tilden continues to withdraw—by capturing New York.

WE heartily endorse the action of the Knoxville ministers, looking towards the inauguration of a reform school in Tennessee for juveniles. Many boys are sent to the jails and some to the penitentiary when proper place is a reform school. It will cost less and be more humane to save and make men of them, than to condemn them to a life of hopeless disgrace and infamy.

THE Cincinnati Commercial thinks there are evidences of another credit mobiler job in the wind. The house subcommittee on Pacific railroads are accused of being peculiarly interested in roads on which they were legislating. It is stated that on one occasion this committee sent its own clerk out of the room, and passed a secrecy resolution, in order that they might lead before the results of their deliberations became public.

THE state was opened at the East Tennessee Book House yesterday for the sale of seats to the Pomeroy engagement next week, and quite a number have been reserved already for "Adriodacks." Monday night, seats are also being taken for "As You Like It" Tuesday night, and "Hunchback" Wednesday night.

POLITICAL.

NEW YORK.

SYRACUSE, April 21.—In the regular democratic convention last night the principal feature of the platform adopted is a denunciation of the election frauds of 1876. The resolutions throughout strongly favor Tilden, and contain the following in reference to him:

"The democratic party of New York add to their condemnation of the electoral conspiracy of 1876, the emphatic declaration of their continued confidence in the character, ability and fitness of that distinguished citizen of New York, who was then elected to the highest office in the people's gift, and who was, in his own person, the object of their joint attack on his party, his fellow citizens and the cause of free government. The blow which deprived the country of its chosen ruler was aimed not so much at him as at the democratic millions who stood behind him."

The delegates to the convention were instructed to advocate the two-thirds rule, and to enter the convention as a unit and act as a unit, and vote as a unit in accordance with the majority of the members thereof, and were empowered to fill all vacancies caused by resignation, death, or otherwise. The resolutions conclude:

Resolved, That in case any attempt should be made to dismember or divide the delegation by contesting the seats of a portion of the delegates; or if any of the delegates appointed by this convention should countenance such an attempt by assuming to act separately from the majority of the delegation appointed by this convention, or to enter the national convention separately from such majority, the seats of such delegates shall be declared to be vacant.

Abram S. Hewitt was elected presidential elector at large.

The following were elected delegates to the national convention at large: Lucius Robinson, Calvin E. Pratt, Rufus W. Pickham, Lester W. Faulkner; alternates, Wm. H. Henderson, James F. Storbark, E. B. Hart, E. A. Pormenter. The full list of delegates to Cincinnati and members of the state committee were nominated by congressional districts, and the convention, at 12:30, adjourned sine die.

VIRGINIA.

STANTON, April 21.—The republican convention met in this city at the opera house at 12 o'clock today, with a full number of delegates present. The convention was called to order by C. P. Ramsdell, chairman of the state central committee. In his brief address, allusions to Gen. Grant were loudly cheered. The names of Blaine and Sherman were also received with considerable applause. The first trial of strength between the straight and readjusters, or Mahone men, was in the temporary organization. J. H. Hill, readjuster, of Petersburg, and Peter J. Carter, of Northampton, straight-out republican, and both colored men, were the nominees. Carter was elected by a vote of 74 to 48, a victory of 26 for the straightouters, though it is claimed by the minority that it was not a strict test vote. While the committee on credentials, Ross Hamilton chairman, retired, the convention took a recess, and, upon reassembling, heard speeches from Messrs. Popham, Rives and Lester. The speeches were interrupted by the report of the credentials committee, by which 144 delegates were seated. The minority report favoring the claim of a contestant from Richmond, and persistently, of J. B. Syphax, of Alexandria, who was also unseated by

the committee's report, brought on a violent and disorderly discussion, which threw the whole convention into confusion, a dozen being on the floor at one time trying to be heard, and the delegates crowding the aisles. The chairman had great difficulty in maintaining order, and appointed a sergeant-at-arms to assist him. The confusion continued until 7 o'clock, when the convention took a recess until 8 o'clock.

GEORGIA.

ATLANTA, April 21.—The republican state convention was held here to-day. It was characterized by bitter feeling and great excitement. The majority of the convention was largely colored. As soon as it was called to order, the contest between the Grant men and the anti-Grant men began, both endeavoring to obtain control of the organization. Two chairmen were elected, both taking the stand and demanding silence. The excitement was intense, and amid cries and yells the convention assumed the shape of a mob.

At last a compromise was had on a negro named Pledger. Several addresses were made, and the convention adjourned until the afternoon. Upon reassembling a committee on permanent organization was appointed which reported W. H. Smyth, a Blaine man, for chairman.

The Grant men denounced this as a trick, and nominated a negro named Pleasant as chairman. The question was put and great confusion, and Smith was declared elected. He took the chair, while the confusion continued, and the convention adjourned until to-morrow morning.

The Grant men claim that they have been outraged, and are holding a caucus to-night to determine their policy. They will demand a reconsideration of the vote on organization, and if it is not accorded they will cause serious trouble. A bolt is probable. All parties are anxiously consulting to-night about to-morrow's programme.

TEXAS.

GALVESTON, TEXAS, April 21.—The democratic state convention was called to order yesterday at the opera house by the chairman of the state committee, Bower. W. S. Coleman, of Harrison, was elected temporary chairman, and in the evening session Hon. Ashbell Smith was elected permanent chairman. The two-thirds rule was adopted. R. B. Hubbard, J. W. Throckmorton, John Ireland and Col. T. M. Jack were elected delegates to the Cincinnati convention. At 11:45 p. m. the convention adjourned till eleven o'clock this morning.

XLVI. CONGRESS.

SENATE.

WASHINGTON, April 21.

Senator Vance (N. C.), from the committee on naval affairs, reported, with amendment, house bill to regulate the mode of purchasing tobacco for the navy. Placed on the calendar.

Senator Jones (Fla.), from the same committee, reported favorably on house bill making an appropriation for the erection of a naval wharf at Key West. Placed on the calendar.

Senator Windom (Minn.), from the committee on railroads, reported, with amendments, senate bill extending the time for the completion of the North Pacific railroad. Placed on the calendar.

Senator Jonas (La.) announced that he intends to make a minority report on said bill.

The senate proceeded to consider the calendar.

The bill granting a pension to Jesse F. Phares, a scout, was again discussed. Senator Maxey (Tex.) supported the bill, as did also Senators Blaine (Me.), Bayard (Del.) and Call (Fla.). After being amended so as to grant the pension of an enlisted private, it was passed.

The senate then resumed consideration of the G-neva award bill, and the house amendment to strike out the provision for the payment of the claims of underwriters was agreed to; yeas, 38; nays, 19. Senator Thurman (Ohio) then said he could not support the bill as amended, and did not wish to remain longer in charge of it.

After some further debate, Senator Eaton (Conn.) moved that the bill be indefinitely postponed, which was agreed to; yeas 31, nays 28.

Senator Blaine (Me.), in order to get an opportunity for a final statement of his views on the subject, moved to reconsider and made a few remarks.

Senator Edmunds (Vt.) moved to lay the motion to reconsider on the table, which was agreed to; yeas 32, nays 28.

Senator McPherson (N. J.), from the committee on naval affairs re-

ported favorably upon the house bill authorizing the equipment of an expedition to the Arctic seas. Placed on the calendar.

Senator Maxey (Texas) moved to take up the senate bill to provide for the settlement of accounts with certain southern railway companies. He urged the importance of the bill, and hoped there would be no further delay on it.

Senator Withers (Va.) moved to take up the army appropriation bill, and after some discussion this was agreed to. The senate then adjourned.

HOUSE.

WASHINGTON, April 21.

The morning hour being dispensed with, Mr. McMahon (Ohio) moved that the house go into committee of the whole on the special deficiency bill, and pending that, moved that all general debate on the bill be limited to five minutes.

Mr. Conger moved to amend by extending the time to two hours. The motion was defeated; yeas 107; nays 114.

The republicans then continued yesterday's filibustering to prevent a vote on Mr. McMahon's proposition to limit the debate to five minutes. After a desultory debate and a number of roll calls, Mr. McMahon withdrew both his motion to go into committee of the whole and to limit the debate.

The house then proceeded to consider the business on the speaker's table. The senate resolution directing the committee on agriculture in the two houses to inquire and report what the government should do to encourage agricultural interests. Mr. Reagan (Texas) offered an amendment directing the committee to inquire also as to the effect on the agricultural interests of the adoption of revenue tariff, in place of the present protective tariff, and as to the proper revision of the laws relating to internal revenue taxation. This led to a discussion of the tariff question. Mr. Reagan said that if Congress intended to do anything to lift the burdens from the shoulders of agriculture, this resolution might be made to furnish it with the necessary information.

Some special means should be devised to relieve the agricultural interests of the country by transferring the vast burdens which it bore to the shoulders of the many. Agriculture was being crushed out while fortunes were being piled up in the hands of a few. This was being done by means of protective tariff, discriminating internal revenue laws and monopolies. He argued that the tariff imposed for the purpose of revenue only would greatly promote agricultural prosperity, and bring about a more general and equal distribution of wealth. In conclusion he said: "Give us a revenue tariff; place it, if you please, at 20 per cent., which is higher than any revenue tariff from the foundation of the government down to the present time, and you will receive, by increased foreign trade, by increased imports and by increased exports as much revenue as now. I believe that besides doing that you would save no less than \$800,000,000 a year to a class which consumes, and to the very agricultural class flattered by the vague platitudes of this resolution."

Mr. Kelley (Pa.) replied to Mr. Reagan at some length, controverting the latter's statements, defending the protective tariff and arguing that protection is especially a benefit to the wool-growers of Texas, in that it gives them, through domestic manufactures encouraged by a protective tariff, the best market in the world for such wool as Texas grows.

Without disposing of the subject, which will come up again when the house next goes into business on the speaker's table, the house took a recess till 7:30, the night session being for the consideration of the bill to establish a code for the District of Columbia.

WASHINGTON.

WASHINGTON, April 21.

Gen. Vance and Capt. McLeod, of North Carolina, succeeded to-day in getting Commissioner Raum to suspend collection of costs in amnesty cases in the 6th district of North Carolina. The district attorney at Statesville was advised by telegram to-day.

THE EXCURSIONISTS.

SAVANNAH, GA., April 21.—The members of the Cincinnati board of trade and chamber of commerce, who arrived here Monday night, were taken on an excursion yesterday, and on returning visited the various places of interest about the city. A ball was given in their honor at the Masonic temple.

DEAD AND DYING.

The Ghastly List Still Growing.

St. Louis, Mo., April 21.—A special from Marshfield says that seventy-one victims of Sunday's storm have been buried and twenty-five more are in a dying condition. The number seriously wounded is about 150. A babe about eighteen months old, whose mother was killed and whose friends were all wounded, was found on the 19th inst., in a ravine north of town, where it lay all night. It is now doing well. Another child two years old was found on the afternoon of the 19th instant, in a tree top, where it had been nearly twenty-four hours. It was considerably bruised but will recover. It was claimed yesterday by its parents, who live two miles and a-half from the southern portion of the town. The child's aerial flight, therefore, must have extended over three miles. A wagon has been found that was carried four miles by wind, and a section of a smokestack of a mill was carried four miles and a-half. It is reported that from thirty to forty persons have been killed by spurs of the tornado in the country, and that Corsicana, in Barry county, is as badly wrecked as Marshfield.

The latest advices from Texas county, Mo., say that the town of Licking was entirely destroyed, with the exception of three houses, by Sunday night's storm. Three hundred persons are homeless. One life was lost, and seven persons wounded, five of them seriously. The damage was fully \$50,000. The tornado did immense injury to all kinds of property in the county.

LONDON, April 21.—The United States man-of-war Constitution has discharged some of her cargo at Cork.

INDICATIONS: For Tennessee and Ohio valley, falling barometer, warmer southerly winds, partly cloudy weather.
